

"Ready, Steady, Grow."

COMPLETE HOME GROW SOLUTIONS

Our Homebox range includes a new generation of ready-made grow rooms which fit at home quite easily into any space or area. And constructed within one hour all by yourself:

- Easy to assemble and disassemble
- Air and light proof
- Easy to clean
- Strong and waterproof

Pots can be put directly on the floor. So also ideal for growing on soil.

The Homebox is high-tech German design and all components are manufactured to the highest standards of quality:

- The housing consists of a combination of tough canvas and solid, thick, flexible, reflective PE on the inside.
- The frame is a metal structure with strong precision nylon push-lock corners with support for all necessary materials and filters, windows and ventilation tubes for in-and outlets.
- The canvas has sewn-in zippers for easy access and closure.
- Once closed, the unit is entirely air and light tight.

Sizes and types

The Homebox is also available in various sizes and a Silver Line version.

This allows you for example to adjust the brightness of your lights, breed and number of plants. The Silver Line variant is a bit more expensive, but with more light reflective material that doubles the beam of light.

Comfort

The Homebox is a complete grow room that comes in a small compact package (thus easy to carry or send by mail)

And due to the simple instructions assembled within minutes. And removed if necessary.

In short, everything you need for a complete grow room to grow, flourish and cuttings, all according to your own needs.

Of course Organic Earth will advise you when purchasing your fertilizers, pots, filters, lights and all other necessary facilities to complete your grow room in this matter.

Complete growrooms

To get the complete 'plug and play' feel, Organic Earth has compiled a number of complete sets, so you are, with one order, assured that have everything at home. It's not only cheaper, but the best part is the guarantee that all parts fit together. So including: a grow tent, all necessary accessories and proper nutrition.
